In the Name of God,

To the Esteemed chancellor of Al-Azhar University,

As you are aware, the Gaza Strip has been subjected to a barrage of aerial assaults from the Israeli regime over the past 23 days. To date, thousands of bombs have been dropped on this densely populated region, resulting in the death of More than 9,000 people and an even greater number of injuries. More than half of those killed were women and children. Several thousand homes have been devastated, and to date over half a million people have been displaced. In a savage attack on al-Mahomedani Hospital on October 17, 2023, over 800 Palestinian refugees, who had sought refuge in the hospital, were massacred.

Regrettably, the Israeli regime has completely besieged the Strip, preventing the delivery of first aid, food, and medicine to over 2.3 million residents. The Israeli regime has cut off water, electricity, and other essential services in the Gaza Strip, and the people living there face significant strain due to the lack of necessary resources for life sustenance.

In such circumstances, we sincerely request you, given the humanitarian missions of academia, to support and bring to the attention of the global community and international officials the following:

- 1- Immediate ceasefire in this region.
- 2- Halt the bombardments, especially those of universities, schools, hospitals, residential homes, and urban infrastructures.
- 3- Open necessary corridors for delivering food and medical supplies to Gaza.
- 4- Enable the presence of aid workers, doctors, and nurses in Gaza.
- 5- Restore water, electricity, gas, and phone services in Gaza.

In addition, given the humanitarian mission and condemnation of injustice to people and land grabbing from oppressed nations, it is necessary that the following are achieved with your support:

- 1- Cessation of the activities of Israeli regime embassies and consulates in different countries.
- 2- Preventing the dispatch of armaments from American bases in regional countries and others to occupied Palestinian territories (Israel).
- 3- Indictment of the Israeli regime officials at the international war criminal courts.
- 4- Restricting oil sales to Israel's supporters.
- 5- Most importantly, exposing Israel's crimes and America's support for this child-murdering government to students and societies around the world.

With the utmost respect,

*M. Mahdavian*
